

Roadmap until Final Exam

Only four weeks to the final exam! Yikes!

- Week 10
 - start time series in lecture
 - work on your assignment, try to submit early!
- Week 11
 - continue time series in lecture
 - assignment 2 due on Thursday!
- Week 12
 - cover practice exam in lecture
 - week 12 quiz, runs as usual
- post-lecture period
 - extra exam consultations (see below)

Consultations

There's still quite a few opportunities for you to seek help on any questions related to the course

Please feel free to come visit us during any of the following days/times/locations:

- weeks 10 to 12
 - Wednesdays 3.05-3.55pm @ Arndt 1010 (computational, Alex)
 - Fridays 3.00-4.00pm @ Arndt 1022 (non-computational, Juergen)
- post-lecture period
 - Tuesday 28 May, 12.30-2.00pm @ Arndt 1022 (Juergen)
 - Thursday 30 May, 12.30-2.00pm @ Arndt 1022 (Juergen)

We're happy to help!

Correction from Week 1 Announcement

There was a typo on this slide in week 1

The final exam will NOT be run via Wattle

It is going to be an in-person invigilated exam

1. quizzes

four quizzes counting 7.5% each in weeks 3, 5, 9, and 12

2. computer assignments

two assignments counting 10% each due in weeks 6 and 11

3. participation

your participation during weekly small group labs, counting 10%

4. final exam

~~will be run on Wattle~~, in-person invigilated exam, counting 40%
(careful, there's a hurdle:

a minimum final exam mark of 20 out of 100 is required to pass the course, regardless of performance in other assessments.)
