

# Academic Staff (update)

We've had a change in our tutoring team: Rentao had to help out in another course, instead we've got Chien Yeh onboard now

You can seek help on matters *academic* from

- your friendly lecturer: Juergen Meinecke (me!)
- your friendly tutors:
  - Alex Looi
  - Chien Yeh

Weekly consultations:

- Fridays 3-4pm, Arndt 1022 (Juergen)
- Thursdays 11.05-11.55am, Arndt 1010 (Chien or Alex)

Email: [EMET2007@anu.edu.au](mailto:EMET2007@anu.edu.au)

# FAQ: I am unable to attend my regular lab this week. What should I do?

Feel free to attend any of the other labs, make sure to bring your computer

- no need to seek my permission, no need to email me!
- return to your regular lab in the following week

Participation mark is not affected by such occasional absences

What if you are unable to attend other labs?

Come see us during consultations! We're happy to help!

# Homework reminder: Get Python-ready!

We need you to get Python-ready for the computer labs

For this to work as smoothly as possible we need you to follow the steps under '*Get Python-ready!*' on my Github website

It's easy to do, but takes a little bit of time

On my website, we guide you through two options:

- installing Anaconda on your own laptops; or
- setting up Google Colab through a web-browser

**Do this soon!**

(definitely before attending your first computer lab)
