

# Assignment 1

The Jupyter notebook file `assignment_1.ipynb` is already available on my Github website

The assignment is a spin-off of the week 4 computer lab

It shouldn't take you more than 3-5 hours to 'solve' the assignment

You need to submit your solution on Wattle

Aim to submit by the end of week 5!

Latest opportunity for you to submit is Thursday 28 March 5.00pm (this is strict, I really do NOT offer any extensions!)

Aim to submit several (!) days in advance

Factor in the possibility of disruptions (e.g., mild to moderate illness) that may prevent you from working on the assignment

You have plenty of time to do this small amount of work, so plan ahead and don't leave it to the last minute!
